

Make a rhino mask

Name: _____

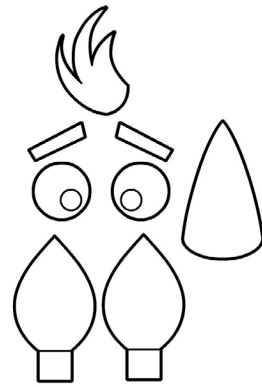

Talk about rhinos with your group. Why do poachers steal rhino horns in South Africa?

Instructions:

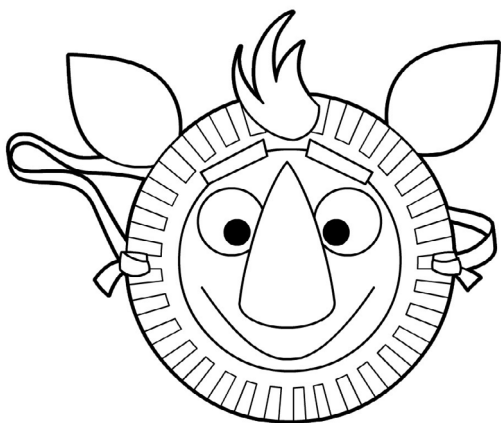

You will need: A paper plate, grey paint, black paint, a paint brush, safe scissors, glue, plain paper and some string to attach to the mask.

Paint the inside of the paper plate grey.

Cut out the template pieces, paint them and allow them to dry.

Paste the ears, hair, eyes and horn to the plate as per the diagram. Paint a happy mouth and attach some string or elastic band to hold the mask in place.

Make up a rhino and role play with a friend, where the rhinos think of ways that humans can help save them from poachers.
